Internships Available in San Antonio!
Work for Attorney General Greg Abbott and future Governor of Texas!

Internships with Texas Attorney General Greg Abbott’s Governor’s campaign are being offered to UTSA students to gain real world political and business experience working on the State Governor’s race.

Students will have the unique opportunity to work at campaign headquarters in San Antonio, alongside campaign staff as they learn about the election process. They will also have the opportunity to meet candidates for office, political professionals, and business leaders and get a behind the scenes view of what it takes to run for state-wide office.

This is also a great way for students to bolster their graduate applications, get a valuable letter of recommendation, or boost their resume experience for the job market. It’s also a great chance for students to get an early start on developing those skills no matter what their field of choice or study.

Students will develop and use computer skills not only in the standard Microsoft Office Suite, but also in state-wide databases; learn graphics programs to design dissemination materials; develop marketing skills; gain a firm understanding of statistics and demographics research when learning the strategies behind precinct walking and polling; gain valuable organization leadership skills when coordinating volunteer groups; and, of course, learn and practice the priceless skill of networking and developing business contacts.

Students will also be rewarded for their hard work with an incentive system that includes prizes and a chance to put their political skills to the test.

7/10 People who work in politics get their start as an intern, just like you! But it’s not just about politics. 90% skills developed and practiced by interns transfer to the area of business, marketing, and organizational leadership. It’s also fun and unlike any other regular office occupation!

The internship is unpaid, but the campaign is happy to work with students to arrange for college credit, if possible. Hour are flexible and remote work is always possible. Ask for all the ways in you can intern!

All interested students should fill out an application and email it to Cassia Beltran at Cassia@gregabbott.com or call (805) 714-7507.
